DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 73-77 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 73 recites the limitation "the exposure to the individual" in lines 9-10.

There is insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

Claims 68,86,96,105,109,110,112,115-119,130,133 and 134 are allowed. The prior art of record fails to disclose, teach or suggest a method of preventing injury or damage of the skin of an individual by periodically applying to the skin a pulsed electromagnetic radiation in temporarily spaced treatment sessions so as to reducing incidence or the likelihood of non-cancerous visible damage to the skin such as radiation dermatitis, sunburns, and poikiloderma as presently claimed.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP
